## THE BIG FIVE!

Everybody comes to Africa to see the so-called big five: elephants, lions, rhinoceros, buffalo, and leopards.

The male lion is the king of the jungle, with a big, hairy mane and huge strength. But he spends all day sleeping – snoring instead of roaring!

The rhinoceros is a plant-eating animal. It has an enormous horn on its head made of keratin, just like our hair and fingernails. Can you paint the rhino and his friends?
